TESTA MOP 2

IoT Integrated

Battery-operated **TESTA MOP 2** is an ultra-compact scrubber dryer designed to reach tight spaces and edges with ease.

Achieve faster, deeper cleaning on all hard surfaces, delivering results far beyond traditional cleaning methods.

Real-Time Data Monitoring

Equipped with IoT technology for continuous performance monitoring, with real-time data accessible via App and online dashboard.

Seamless Transportation

Lightweight & compact design allows seamless transportation, providing professional-grade results anytime, anywhere!

Handheld

Wheeled

Trolley Attachment

Key Features

Ergonomic Handle Controls

Featuring single-action adjustment button and intuitive panel configuration for user-friendly operations.

Corner Cleaning Operations

Innovative 180° rotative suction mechanism that allows to reach corners, narrow, and restricted areas.

Easy Maintenance

Large water tank opening for effortless cleaning. Quick-access battery compartment for smooth battery exchange.

TECHNICAL SPECIFICATIONS

Cleaning Width	280 MM
Squeegee Width	340 MM
Cleaning Efficiency	800 M ² / Hour
Brush Speed	150 RPM
Clean Water Tank	6 L
Recovery Tank	9 L
Scubbing Operations	3 hours
Brush Motor	200 W
Vacuum Motor	120 W
Battery Type	12 Ah (16Ah) / 24 V Lithium-ion
Weight	23 KG
Dimensions (L x W x H)	584 × 401 x 1040 mm
